

SUSTAINABLE PROCUREMENT POLICY

Felix O'Hare & Company Ltd is committed to sustainable procurement in a responsible and sensible manner. By definition sustainable procurement is the process of purchasing goods and services that takes into account the social, economic and environmental impact that such purchasing has on people and communities.

This sustainable procurement policy is achieved through consideration of what products are made of, where they have come from, who has made them, how they are transported and how they are eventually disposed of. The specific sustainable procurement practices which Felix O'Hare & Company Ltd are committed to at all levels within the Company are as follows:

- Procure durable goods and services, which reflect up-to-date specifications or standards for environmental sustainability
- Promote a level of sustainability awareness amongst Felix O'Hare & Company supply chain partners and encourage them to adopt sustainable practices
- Include sustainability issues as part of our subcontractor & supplier appointment process
- Prohibit the use of products or processes, which are potentially damaging to the environment, such as toxic materials or refrigerants with global warming potential, where a less environmentally damaging alternative is available
- Where possible purchase local products and services with low embodied impact
- Pursue good practice in relation to the purchase of Legal and Sustainable Timber products

In addition, this policy statement will be communicated to all persons working for and on behalf of Felix O' Hare & Company Ltd.
